Information on Tutors and Teaching Methods

Language Tutors: All our teachers are native Croatian speakers with university degree qualifications and are specialists in teaching the Croatian language and giving cultural briefings to non-Croatians.

Method: Using creative methods we develop all four language skills - reading, writing, listening and speaking using authentic teaching materials and techniques such as role play and grammar exercises to reinforce each lesson's objectives. For advanced level students we review current affairs via newspapers & journals in order to augment the student's knowledge of the culture and provoke discussion.
